

NEW HMC Approved Beef Burger

Our Halal Monitoring Committee (HMC) Beef Burgers are crafted using only certified HMC suppliers of beef and seasonings, with our famous market-leading Superior recipe. All HMC burgers are made on a dedicated day at the factory and are monitored by HMC inspectors to ensure that the finished product meets the genuine expectations of the Muslim faith. Each box is individually serialised (by way of a sealed sticker) for full traceability and authenticity of product.

Formed in 2000 and based in beautiful Mid Wales, our current premises are soon to be replaced by our brand-new £3.5m purpose-built factory. With a turnover in excess of £10m, we primarily supply the Fast Food and Foodservice markets. All of our products have full traceability and can be purchased with absolute peace of mind. We are sole manufacturer to our holding company Sparks Catering Butchers Ltd who have the market leading 'Sparks brand' of beef burgers. The Burger Manufacturing Co Ltd also supplies strategically placed wholesalers around the UK and into mainland Europe.

To discuss your individual requirements, or for information on any of our products, please contact us using the number overleaf.

BMC Halal Range (not HMC)

BMC is committed to sourcing genuine halal ingredients which are fully certified to halal standards. Certificates that confirm our products authenticity are available with purchase.
